

ASHRAKAT RAAFAT ELABD

FRONTEND DEVELOPER | MOBILE APP DEVELOPER

Tanta, Egypt • ashakraaafat85@gmail.com • linkedin.com/in/ashrakat-raafat • github.com/a112kt

PROFILE

Fresh graduate Computer and Control Engineer passionate about building modern, responsive web and mobile applications. Hands-on experience crafting clean, reusable, scalable interfaces with a strong focus on performance, usability, and maintainable component-based architecture.

CORE SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js

Mobile: React Native, Expo

State: Redux Toolkit, Context API, React Query, RTK Query

UI: Material UI, Chakra UI, Tailwind CSS, Bootstrap

APIs: REST APIs, Axios

Backend (Basic): Node.js, Express.js

Database: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code, Figma

SELECTED PROJECTS

- Alluvo - Social Commerce Mobile Application (React Native, Expo, TypeScript, Redux Toolkit, React Query, Axios). Reels-driven shopping with product discovery, wishlist, cart, checkout, chat, notifications, AI-assisted interactions, and Brand Mode.
- Horizon Educational Platform - Freelance e-learning platform (Next.js, React.js, Chakra UI, Material UI, Redux Toolkit, React Query) with course content and a responsive student experience.
- Admin Dashboard - Analytics and management dashboard built with Next.js, TypeScript, Material UI, Redux Toolkit, RTK Query, and Recharts.
- E-Commerce Web Application - Full storefront with product catalog, filtering, cart, and checkout (React.js, Redux Toolkit, React Query, Tailwind CSS).
- Real-Time Chat Application - Live messaging app with instant updates via Socket.io and REST APIs (React.js).

EXPERIENCE

Freelance Frontend Developer

Designing and building responsive web experiences for clients end to end - from brief and architecture to delivery. Main project: Horizon Educational Platform, built with React.js, Next.js, Redux Toolkit, React Query, Chakra UI, Material UI, and REST APIs.
